The Information Technology Act, 2000

Section 15 - Secure electronic signature

¹[**15. Secure electronic signature.**--An electronic signature shall be deemed to be a secure electronicsignature if--

(i) the signature creation data, at the time of affixing signature, was under the exclusive control ofsignatory and no other person; and

(ii) the signature creation data was stored and affixed in such exclusive manner as may beprescribed.

Explanation.--In case of digital signature, the "signature creation data" means the private key of thesubscriber.]

¹Subs. by s 11, *ibid.*, for sections 15 and 16 (w.e.f. 27-10-2009).
