CANTONMENTS ACT, 1924

Section 154 - Report after inspection of dairy or washerman's place of business

Where, after inspection, the Health Officer is of opinion that any infectious or contagious disease is caused or is likely to arise in the cantonment from the consumption of the milk supplied from a dairy or from the washing of clothes or other articles in any place, or from any process employed by a washerman, he shall report the matter to the Executive Officer.
