Dominion Act, 1948

Section 4 - GENERAL POWERS OF THE CENTRAL GOVERNMENT -The Central Government shall have power

a) to produce, use and dispose of atomic energy and carry out research into any matters connected therewith ;
(b) to manufacture or otherwise produce, buy or otherwise acquire, store and transport any articles which in its opinion are, or are likely to be required for or in connection with the production or use of atomic energy or such research as aforesaid, and to dispose of any articles manufactured, produced, bought or acquired by it; and (c) to do all such things (including the erection of buildings and execution of works and the working of minerals) as the Central Government considers necessary or expedient for the exercise of the foregoing powers.
