

Bihar Reorganisation Act, 2000

Section 63 - Continuance of Arrangements in Regard to Generation and Supply of Electric Power and Supply of Water

If it appears to the Central Government that the arrangement in regard to the generation or supply of electric power or the supply of water for any area or in regard to the execution of any project for such generation or supply has been or is likely to be modified to the disadvantage of that area by reason of the fact that it is, by virtue of the provisions of Part II of this Act, outside the State in which the power stations and other installations for the generation and supply of such power, or the catchment area, reservoirs and other works for the supply of water, as the case may be, are located, the Central Government may give such directions as it deems proper to the State Government or other authority concerned for the maintenance, so far as practicable, of the previous arrangement.
