Dated this the 7th day of April 2021

1. The challenge in these writ petitions is with regard to the

conduct of Review Medical Examinations (RME for short) by Review Medical Boards (RMB for short) formulated for the purpose of selection of candidates. The petitioners are applicants for the post of Constables (General Duty) (male/female) in the Central Armed Police Forces, BSF, CISF, CRPF, ITBP, SSB, NIA & SSF & Rifleman (General Duty) in Assam Rifles on the basis of selection conducted by the Staff Selection Commission. The selection procedure consisted of a computer based examination conducted by the Staff Selection Commission followed by a physical efficiency test/physical standard test and Detailed Medical Examination (DME for short). The conduct of the DME was regulated by the revised guidelines for Recruitment Medical Examination in Central Armed Police forces and Assam Rifles issued in May, 2015. Uniform guidelines were provided for the conduct of DME as well as for RME, wherever found necessary.

2. The petitioners in these writ petitions had undergone the

DME and had been found unfit for various reasons. They had submitted appeals as provided in the guidelines along with medical certificates from relevant specialists disputing the findings in the DME. In most of the cases, the appeals had been allowed and RMEs had been conducted by the RMB in each of these cases. The petitioners challenge the findings of the RMB on the ground that such findings are either not supported by any relevant material or that the

guidelines for the RME have been flouted while conducting

the re-examinations. In most of these cases, the petitioners have also produced further certificates from Medical Specialists to show that the findings of the RMB are unwarranted and incorrect.

3. The learned counsel for the petitioners submit that the

petitioners are young men and women typically between the age of 20 and 27 and that the rejection of their candidature on the ground that they are physically unfit is completely unsupported by any material. They submit that they have succeeded in proving before the appellate forum that the reasons stated by the DME Board for rejecting their candidature were completely unfounded and the RMB was directed to consider the issue. It is contended that the RMB having been required to re-consider the rejection ought to carry out the examinations specifically in terms of the

guidelines issued and should exercise utmost diligence in

the re-examination and the candidate should be rejected only if there is no other alternative.

4. The learned counsel relies on a direction issued by a

Division Bench of the High Court of Delhi in W.P.(C).No.9804

of 2018 and another decision dated 14.08.2012 again of a Division Bench of the High Court of Delhi in W.P. (C).No.13461 of 2009 and of a Division Bench of the High Court of Karnataka (Dharwad Bench) in W.P.(C).No.100046 of 2020 and connected cases dated 27.08.2020 and of a learned Single Judge of the High Court of Jammu and Kashmir in SWP.No.2147 of 2012 and of a Single Judge of the High Court of Jharkhand in W.P.(S) Nos.2393/20 & connected cases dated 12.1.2021, where the RMB was directed to be held again.

5. The petitioners contend that in the RMEs conducted, the

guidelines have been given a go by and the attempt has

been to reject the candidature of the petitioners based on the reports of the Detailed Medical Board and what was stated in the Form 3 accompanying the appeal preferred by them. In the case of rejection of candidature for

hypertension/tachycardia, it is submitted that the guidelines

specifically provided for admission of the candidates in hospitals by the RMB before giving their final opinion regarding the candidates' fitness or otherwise. It is provided that the hospitalization report should indicate whether the rise in blood pressure is of transient nature due to excitement etc. or whether it is due to any organic disease. It is stated that in all such cases, X-Ray, ECG examination of heart and blood examinations like S.Cholesterol/lipid profile, S.creatinine etc. tests should be carried out. It is submitted that none of the candidates had been hospitalized presumably due to the pandemic situation prevalent at the time and the rejection was merely on conducting separate readings of their blood pressure and in many of the cases, there was no blood examination done at all. With regard to findings of knock knee, pes cavus, flat foot, haemorrhoids etc., it is contended by the learned counsel for the petitioners that the defects, if any, were so negligible that had the guidelines been followed, the petitioners would definitely have been included, since evidently there would have been no interference with their carrying out the duties allotted to them.

6. In the case of rejection on account of heamorrhoids as well,

it is stated that the guidelines specifically provides that hemorrhoids with evidence of bleeding is a ground for rejection and there is no finding of any evidence of bleeding even in a single case. It is, therefore, contended that the rejection of the candidature was on no material and in violation of the guidelines and that therefore a RME is liable to be conducted in these matters. It is further submitted that all the petitioners had come out successful in the arduous physical endurance tests which would be impossible if they had the defects as noted by the RMB.

7. Statements had been placed on record by the respondents.

It is contended therein that the appointment is to the post of GD/CT in Paramilitary/Police Forces and that the DME is, therefore, of primary importance in assessing the suitability of the candidates. It is stated that due to the very nature of the duties they will be called upon to perform and the stations where they are likely to be posted, the mental and physical ability of the candidates are of extreme importance to the nation and to the public in general and their suitability is to be ascertained specifically in terms of the guidelines. It is stated that the DME had

been conducted specifically in accordance with the guidelines and that the purpose of the RME is to assess the fitness of the candidate. It is stated that the guidelines specifically provide for examination by experts and for investigative procedure in certain cases. It is stated that the opinion of the expert and the results of the examinations conducted on them is to be placed before the RME and it is the function of the RME to assess the fitness of the candidate for carrying out the duties which are likely to be allotted to them on their being appointed in the Forces. It is submitted that it is not the function of the medical expert or the laboratory to assess the fitness of the candidate and that is a function which has to be performed by the RME. It is submitted that the RME consists of doctors from the Force and the specific conditions of service are clearly known to them. It is stated that the degree of the defect and the issue whether it is acceptable going by the nature of the duties which the candidates will be called upon to perform if they are appointed in the Forces are matters for the RME to assess and that the subjective opinions of expert doctors has no role to play, whatsoever, in the matter of induction to Armed Forces. It is submitted that in the case of rejections on the basis of knock knee specifying measurements of the i inter- malleolar distance distance had been carried out at the time of the RME and the rejections were supported by data. In the case of rejection on Deviated Nasal Septum and airway obstructions, it is contended that C.T.scans were carried out at the RME consisted of an ENT specialist who had examined the candidates and the reports. It is submitted that all the guidelines had been followed while conducting the RME, as much as the pandemic situation permitted.

8. It is submitted that the petitioners, who had been subjected

to the RME had been specifically examined and their medical records had been placed before the RME which had considered every aspect of the matter. A decision of a

Division Bench of the High Court of Delhi dated 21.12.2020

in W.P.(C).No.10783 of 2020 is relied on to contend that where a finding has been entered on examination by the RME, no interference by a court of law exercising

judicial review is contemplated or desirable.

9. It is pertinent to note that in these batch of cases,

impleading petitions have been filed by candidates who were successful in the selection procedure and who have expectations of being appointed if the vacancies that have now been kept unfilled pursuant to interim orders of this Court are permitted to be filled up. Advocate Varun C. Vijay appearing for the petitioner in the IA for impleading submits that only those seats as are required to accommodate the writ petitioners where a further medical examination is ordered may be reserved and the rest of the vacancies can be filled up. 10.I have considered the contentions advanced on either side in each of these writ petitions and have examined the file of the examination by the RMB with reference to the specific provisions of the guidelines in each of these cases. The learned ASGI and the learned CGC appearing in the matter have made available before me the records of the examinations conducted by the RMB to find the petitioners unfit. I notice that in some of these cases, the rejections have been specifically based on objective data, including the tests and reports of investigations which have been provided for in the guidelines. For instance, in most cases of rejection on the ground of varicose veins, the rejection is specifically based on color doppler tests and reports accompanying the same stating either that varicose veins are present or that there is specific evidence of surgery having been done for varicose veins. In view of the fact that the guidelines specify that varicose veins are a general ground for rejection, if the parameters set out are not met and since it is specifically stated in the guidelines that cases of varicose veins, even if operated, are not to be accepted because the basic defect remains unchanged, I am of the opinion that the cases of rejection on findings of varicose veins from the color doppler test and on findings that the candidate had varicose veins but had been operated earlier cannot be assailed only due to the fact that the guidelines provide that only prominence of vein should not be a criteria for rejection. Where the findings of the RMB are accompanied by findings in the color doppler test to the effect that varicose veins are present or where the RMB has found the candidate unfit on the ground that there is specific admission that surgery had been performed for varicose veins, I am of the opinion that absolutely no interference is

called for by this Court. 11.Similarly, in cases where the candidates have been found to be overweight or underweight on the basis of specific charts provided in the guidelines itself, I am of the opinion that no interference is called for. Similarly, where deformities of the heart are noticed including mitral valve prolapse etc., and the findings are supported by proper studies and examinations, no interference would be called for. In cases of knock knee, where the ASGI specifically submits that inter-malleolar distance measurements have been carried out with a wooden block and recorded by the RMB and where the measurement exceed the parameters specified in the guidelines, I am of the opinion that no interference would be required. In view of the fact that the RME consisted of an ENT surgeon and the cases of deviated nasal septum and blockage of airway have been specifically considered on the basis of CT Scan reports which have been procured by the RMB also, the findings cannot be assailed since the RMB consists of doctors from the Force, who have to be deemed to be aware of the situation in which the petitioners will be required to work and the dangers of requiring of person with a blocked airway to carry out arduous duties in difficult terrain. In view of the findings entered by the RMB, I am of the opinion that the cases where the RMB has relied on objective findings to find the petitioners unfit and where the findings of the RMB are supported by material, no interference would be called for from this Court.

12. In the above view of the matter, W.P.(C).No.22475/2020,

W.P.(C).No.23817/2020, W.P.(C).No.25240/2020, W.P.(C).No. W.P.(C).No.26338/2020, W.P.(C).No.26254/2020, W.P.(C).No. W.P.(C).No.26817/2020 and W.P.(C).No.26818/2020 are dismissed. 13.In W.P.(C).No.16131/2020, the challenge is against the rejection of the appeals preferred by the petitioners seeking the conduct of a RME to assess their fitness. The petitioners had been subjected to RME pursuant to interim directions of this Court. The petitioners, who were found unfit by the RMB are the petitioners in W.P.(C).No.26149/2020 as well. W.P.(C).No.16131/2020 is, therefore, closed. 14.In W.P.(C).No.26149/2020, some of the rejections are based on objective criteria, including the candidates being overweight and the presence of varicose veins as revealed from the color doppler test or where it is admitted that surgery

had been performed for varicose veins. Where the rejection is on such objective grounds there is no reason for a reconsideration at all. However, in the remaining cases, that is, where the rejection is specifically based only on findings of Pescavus, Pectus Excavatum, foreshortened thumb etc. and where the medical experts has opined that there is no such condition present or that the deformity due to the condition is negligible, the situation calls for a further examination. In the above view of the matter, petitioner Nos.3,4,6 &7 in W.P.(C).No.26149 of 2020 are liable to be subjected to a further RME to consider their fitness for selection. 15.However, in cases where the rejection is on the grounds of Hypertension/tremors, Pes cavus, carrying angle etc. where the petitioners have produced material to show that the defect was negligible and where the procedure prescribed has not been followed or the specific degree of the defect has not been recorded by the RMB, I am of the opinion that a further examination by the RMB is required.

16. In W.P.(C).Nos.22704/20, 23974/20, 23899/20, 24041/20,

conduct a further RME of such of the petitioners, who have secured the minimum cut off marks required for selection to assess their suitability. The RME shall be conducted within three weeks from the date of receipt of a copy of the judgment. The petitioners shall produce a copy of the writ petition before the RMB in evidence of their contentions. The results of the RME shall be informed to the petitioners. The RMB shall record the specific findings and the reasons for rejection. It is made clear that once the reports of further RME are made known to the candidates the selections can proceed taking note of the reports of the RMB.
